

YOUTH BIRTHDAYS

Book a fun and exciting birthday party for your kids at VM Karting Center!

Our birthday packages are suitable for groups of all sizes, accommodating up to 16 people. No matter if the kids are experienced drivers or going on the track for the first time. Our professional track staff will provide everyone with the necessary safety instructions to get going.

The races are run in open pre-set family sessions where everyone can participate in. This means that even the parents and grandparents can join in on the fun. The family sessions use a so-called 'junior' power setting to ensure safe driving for all drivers.

The minimum height requirement for driving is 135cm, but even smaller children can participate by riding alongside a parent, with our tandem two-seater karts. All necessary driving equipment (such as helmet and balaclava) are provided free of charge.

Your group will also have a dedicated birthday area for enjoying party snacks and refreshments. The package includes two slices of pizza and a choice of a 0.5-liter soft drink for each participant.

An award ceremony after the race is a great way to finish off the fun. Add prizes and take memorable photos of your birthday group by the podium.

Birthday Package

(2-16 pers.)
